

Is This Proposition for You?

You can join our private members who are already receiving

“High Yield Returns”

Using Other Peoples Money (OPM) & Substantially Improve Your Income On Your Low & Non-Returns Investments In Our Six Figure Club Programs

This is the How, What, Why, When, Who, And Where....You Can Achieve!!!!

Now You Can See How... Our members in the: Six Figure Club are earning three to ten times more returns with Passive Income than your Banker, Stock Broker, and other Financial Institutions can offer...

Use our firm’s long history (more than three decades) of helping our private members and business partners earn **Six Figure+ Incomes** by leveraging and allocating dead equity and poorly performing assets. By providing capital from hard money lenders (You) to businesses who need you’re funding and have the means of paying you (The Private Sector) higher rates of return for access to your funds. You and our firm are paid **FIRST** from profits generated before the borrower / business is paid its share of the profits.

Understand What & Why... Our members need to know the kinds of options and the types of vehicles currently available in this up-side-down market place...

Our business clients are seeking short-term bridge loans; your funds are secured with future revenues from profits, secured by assets in most cases and or by promissory notes. These loans will be paid with interest that is higher than the normal rates one would expect from CD’s or similar instruments; the loans described here will mature in (7) seven months or less. Equity ownership options are available for those who can make larger loans. In today’s environment, many companies find it necessary to seek funding from the private market place, and they expect to pay a premium for the temporary use of your funds. Some times this (methodology) is referred to as **“factoring”** or raising capital **prior** to the securing of funds or increasing corporate lines of credit / and invoice billing to maintain necessary cash flow that every business must keep through out the year.

Timing To Know When... This is your turn to earn profits simply by re-allocating your own assets and using Other Peoples Money (OPM)...You Can Get Started Today!!!

Now, more than any time in history, your funds can create new, timely employment and marketing opportunities. These in turn create new markets and multiple profit centers so that everyone benefits years into the future. We are committed to help grow this economy, and you can join with us in our **“Rewards Based Programs”**.

How Do I Find Who & Where... When Joining our Private Members Network, You, Your Family, Your Business, Your Employers can increase the “Cash Flow” we all need to pay our bills, cover our on-going expenses, earn substantially higher returns...in a timely manner...

YOU can visit us today by viewing the following two websites, or you can call: **1.843.997.1800**. You will find our **High Yield Return Passive Income Programs (HYRPIP) Overview**. These programs are structured so our private members may earn **three to ten times** the standard rates of return most people are currently receiving.
